## Information collection and use

### How do we collect information?

We collect information in two possible ways:

When you directly give it to us (“Directly Provided Data”)

When you use our site, purchase our products, or communicate with us, you may choose to voluntarily give us certain information – for example, by filling in text boxes or completing registration forms. All this information requires a direct action by you at that time in order for us to receive it.

When you give us permission to obtain from other accounts (“User Authorised Data”)

Depending on your settings or the privacy policies for other online services, you may give us permission to obtain information from your account with those other services. For example, this can be via

social media or by choosing to send us your location data when accessing our website from your smartphone.

### How long do we keep your data for?

We will not retain your personal information longer than necessary. We will hold onto the information you provide either while your account is in existence, or as needed to be able to provide our services to you, or (in the case of any contact you may have with our Customer Care team) for as long as is necessary to provide support-related reporting and trend analysis only.

If legally required or if it is reasonably necessary to meet regulatory requirements, resolve disputes, prevent fraud and abuse, or enforce our Terms and Conditions, we may also retain some of your information for a limited period of time as required, even after you have closed your account or it is no longer needed to provide our services to you.

### Links to other websites

Our website may contain links to sites that are unrelated to us. This policy is not applicable to any of these sites and we are not responsible for the content, activities or practices of any of those third party sites.

### Security

The security of your personal information is important to us. We attempt to ensure that the transmission of your information to our server is protected by the use of encryption software. We have also put in place appropriate technical and organisational measures to prevent unauthorised access to or unauthorised or unlawful processing of your personal information. However, due to the inherent open nature of the internet, we cannot guarantee that communications between you and us will be free from unauthorised access by third parties such as hackers. Your use of our website demonstrates your acceptance of this risk.

## What happens to your personal information

We will not sell or rent your personally identifiable information, gathered as a result of filling out the site registration form, to anyone.

We may disclose your personal information to other companies within the Online Simplicity group of companies. We may also disclose your personal information to third parties that are engaged by us to perform services to us or on our behalf. Third parties may only use the data for the purpose for which it was provided. We may also allow third parties to use information we hold about you as part of the process of selling one or more of our businesses or if we have been asked to provide information for legal purposes.

## Choosing how we use your data

We understand that you trust us with your personal information and we are committed to ensuring you can manage the privacy and security of your personal information yourself.

With respect to the information relating to you that ends up in our possession, and recognising that it is your choice to provide us with your personally identifiable information, we commit to giving you the ability to do all of the following:

Please note though that, if you have shared any information with others through social media channels, that information may remain visible, even if your account is deleted.
- You are also free to close your account through our account settings. If you do so, your account will be deactivated.

However, we may retain archived copies of your information as required by law or for legitimate business purposes (including to help address fraud and spam).
